Fiche technique des masques chirurgicaux

Pour une protection optimale, le masque chirurgical doit être posé avec attention sur votre visage.
Les étapes suivantes vous permettront d'être protégé efficacement :

- 1 - Se laver les mains et placer le haut du masque sur le nez et les bandes élastiques autour des oreilles, face bleue à l'extérieur
- 2 - Ajuster la baguette du bord haut du masque sur le nez pour adapter la forme à votre morphologie, puis déployer le bas du masque sous votre menton
- 3 - Procéder aux derniers ajustements pour assurer une couverture efficace du nez et de la bouche
- 4 - Une fois ajusté, ne plus toucher le masque avec les mains
- 5 - Lavez-vous les mains après avoir retiré votre masque, et jetez-le dans une poubelle fermée après usage

Mise en garde :

- Ce produit est à usage unique, il est jetable et ne peut pas être lavé et réutilisé.
- Durée d'utilisation recommandée : 4 heures
- Ne pas utiliser en salle stérile ou en salle d'opération
- Ce produit ne doit pas être utilisé après sa date limite de conservation (voir sur le dessous de la boîte ou si l'emballage est endommagé)
- Le produit doit être stocké au sec et à l'abri de température extrêmes
