DETAIL

Ideal for retailers looking for adaptable lighting, this LED black 34W spotlight offers performance and style. It provides targeted illumination of your rays, shop windows or circulation areas thanks to its pivoting head. Its 3500K light temperature enhances products without distorting colours. Designed for three-light tracks, it can be installed in a few minutes and moved as required. Economical and durable, it is a reliable solution for merchandising professionals.

DESCRIPTION

This black LED spotlight is designed for precise and elegant professional lighting. With a **power of 34W**, it diffuses a **neutral warm light at 3500 kelvins**, ideal for enhancing products while creating a comfortable ambience. Its matt black aluminium body blends in perfectly with modern environments. It can be rotated, so the light beam can be adjusted as required. Easy to install on three-phase tracks (3 ignitions), this spotlight is a reliable choice for **shops, galleries and retail corners**.
