DETAIL

Thoughtfully designed for retail professionals, this LED blue light projector is ideal for energising a window, showroom or event space. Its cool light creates a modern, immersive atmosphere, while enhancing your products in an unprecedented way. It moves easily on three-phase track to accompany the evolution of your staging. This spotlight combines technical reliability and visual power to transform the customer experience at your point of sale.

DESCRIPTION

This **black LED spotlight** diffuses an intense blue light, ideal for creating striking visual atmospheres. With a **power of 30W**, it is designed for quick installation on three-phase rail. The aluminium casing ensures robustness, good heat dissipation and long life. Its swivel design means you can adjust the direction of the beam to suit your needs. This model is perfect for drawing attention to specific areas or adding an original scenographic effect to your sales areas.
