DETAIL

Perfect for shops, showrooms and offices, this 120 cm LED strip light diffuses a pleasant neutral light that highlights products and surfaces without distorting colours. Thanks to its power of 30W, it offers a good balance between brightness and energy savings. Its linear format means it can be installed discreetly and continuously over several metres if required. Whether for main or accent lighting, this LED solution is reliable, modern and easy to integrate into all professional environments.

DESCRIPTION

This 120cm white linear **LED strip light** provides even, high-performance illumination thanks to a **30W** output and a **neutral light of 4000 Kelvin**. Its white aluminium structure blends easily into any commercial or professional space. Compact, slim and discreet, it allows for simple ceiling or pendant installation. It is ideal for illuminating **linear displays, shop windows, offices or even traffic areas**. It operates flicker-free and with excellent energy efficiency for a long life.
